

SECTION II — GENERAL INFORMATION (Continued)

6. PROJECT ENGINEER

NAME: _____ PHONE (____) _____

COMPANY: _____

ADDRESS: _____

CITY: _____ STATE: _____ ZIP: _____

P.E. CERTIFICATION NO.: _____

7. PERSON WHO WILL CONSTRUCT THE PROPOSED WORK

NAME: _____ PHONE (____) _____

COMPANY: _____

ADDRESS: _____

CITY: _____ STATE: _____ ZIP: _____

8. ADJACENT PROPERTY OWNERS

Provide the name and mailing address of all property owners adjacent to the water body affected by the project that are immediately downstream of the property upon which the project is proposed. Use additional sheets if necessary.

NAME: _____ PHONE (____) _____

ADDRESS: _____

CITY: _____ STATE: _____ ZIP: _____

NAME: _____ PHONE (____) _____

ADDRESS: _____

CITY: _____ STATE: _____ ZIP: _____

SECTION III — Location of Project:

Section(s): _____ 1/4 Section: _____

Township: _____ (N or S) Range: _____ (E or W)

Latitude: ____° ____' ____"N Longitude: ____° ____' ____"W

Street Address: _____

City: _____ County: _____

Name of stream, waterway or waterbody at location of proposed project: _____

SECTION IV - SITE AND PROJECT INFORMATION

1. ALL PROJECTS

- A. Area of watershed upstream from project discharge (acres): _____
- B. Estimated base flow of stream at project site (cubic feet/second): _____
- C. Type of structure(s) to be constructed: _____
- D. Date construction is expected to commence: _____ Be completed: _____

2. IMPOUNDMENTS

- A. Area of inundation at normal pool: _____
- B. Maximum impoundment capacity: _____
- C. Dam Height: _____ Dam Length: _____
- D. Maximum Depth: _____ Average Depth: _____

3. ROAD CROSSINGS

- A. Length of crossing: _____ Width of road: _____
- B. Number and size of culverts: _____
- C. Length of bridge: _____ Width of bridge: _____

4. PROJECT PURPOSE

Attach details of the proposed use of the project. Include current and proposed use of the land served by the project. For irrigation projects include irrigation method, acreage to be planted and irrigated, and the crops to be planted and their water requirements. For livestock watering projects include the type and number of livestock and their water requirements. For all projects include a timetable for implementation of these project details.

5. MAPS

- A. Location Map: Attach a map of sufficient detail to find the site(s).
- B. Topographic Map: Attach a topographic map of the watershed. A minimum scale of 1:25,000 with 10 ft. contours is required. USGS 7.5 minute topographic maps may be used.

6. BEST MANAGEMENT PRACTICES

Describe the BMP's that will be implemented to provide for water quality protection as a part of the construction and operation of the proposed project.

7. PLANS

- A. All Permit Applications: Attach plans and specifications of sufficient detail to allow complete evaluation of the proposed work. These should include plan and cross-section diagrams with dimensions of all cut and fill proposed, location of erosion control devices, calculations substantiating hydrologic sizing, and a narrative indicating any dewatering or temporary diversion plans and hazardous conditions.
- B. Standard Permit Applications: Include a topographic/bathymetric map of the impoundment (two foot contours). Provide geotechnical reports for soil borings along the centerline of dam and at least two borings of borrow areas. This shall include profile information and standard penetration analysis.
- C. All plans and details should identify where the design criteria and standards identified in Section 40A-44.301(3) and (4) F.A.C., have been followed to provide the reasonable assurances as required in Section 40A-44.301(2) F.A.C.

SECTION IV - SITE AND PROJECT INFORMATION (continued)

8. OPERATING AND MAINTENANCE PROCEDURES

Include all procedures planned for the operation and maintenance of the proposed works and all appurtenant works. Include plans for operation during floods and droughts. Identify the person or entity responsible for operation and maintenance.

9. WILDLIFE INVENTORY

Provide an inventory and evaluation of endangered and threatened species, and species of special concern, that are known to occur on the site, as listed pursuant to Section 39-27.003-.005, Florida Administrative Code, Section 581.185 (5) (a), and 50 CFR 17.11-12.

SECTION V - AGRICULTURAL STATUS

Provide information supporting the agricultural status of the property and proposed project. This information must include:

- A. A Soil and Water Conservation District approved conservation plan;
- B. A receipt of application for agricultural classification of the property, commonly called a Green Card, indicating the property is zoned agricultural; and
- C. An ASCS farm number.
- D. A District Affidavit of Agricultural Status (Form A44-E) is required in areas of changing land use from agricultural to other uses.

A District Affidavit of Agricultural Status may be used in lieu of b and/or c for any project.

SECTION VI - WETLAND INVENTORY

Indicate the acreage of the wetlands impacted by this project as follows. If a category is not applicable for your project, answer with N/A or 0.

Location of these wetlands should be indicated by category on a plan view of the site.

____ TOTAL PROJECT ACREAGE - Total acreage of all land on the project site.

____ TOTAL WETLANDS - Total acreage of all wetlands on the project site prior to construction.

____ WETLANDS PRESERVED - Wetland acreage which exists on site before construction and will remain undisturbed by the project. Methods of wetland preservation includes conservation easements, restrictive covenants, permit conditions and project design which avoid wetland alteration. Do not include wetlands to be created or improved.

____ WETLANDS DISTURBED - Wetland acreage existing on site before construction, which is temporarily disturbed during construction, but which will return or be restored to its previous condition after construction.

____ WETLANDS LOST - Wetland acreage on site which will be permanently converted to another form.

____ WETLANDS CREATED - Upland acreage which will be converted into wetlands.

____ WETLANDS IMPROVED - Wetland acreage which existed before construction, but will be enhanced or restored to higher quality wetlands.

____ OTHER COMPENSATION - Acreage which will be preserved or improved to provide buffers to on-site wetlands or habitat for wetlands wildlife.

SECTION VII - AFFIDAVIT OF OWNERSHIP OR CONTROL

The following is a certification that the applicant has ownership or control of the property on which the proposed project is to be undertaken:

I, _____, CERTIFY THAT (check appropriate space):

- I am the record owner, lessee, or record easement holder of the property described below.

- I am not the record owner, lessee, or record easement holder of the property described below, but I will have before undertaking the proposed work the requisite interest. (Explain what the interest will be and how it will be acquired).

LEGAL DESCRIPTION OF PROPERTY SITUATED IN _____ COUNTY, FLORIDA (use additional sheets if necessary):

Signature _____

Date _____

SECTION VIII - OWNER'S AUTHORIZATION

Application is made for a permit(s) to authorize the activities described herein.

- (a) I understand that I may have to provide any additional information or data that may be necessary to provide reasonable assurance or evidence to show that the proposed project will comply with the applicable State Water Quality Standards.
- (b) In addition, I agree to provide entry to the project site for inspectors with proper identification or documents as required by law from the NFWMD for the purpose of making preliminary analyses of the site. Further, I agree to provide entry to the project site for such inspectors to monitor permitted work if the permit is granted.
- (c) Further, I hereby acknowledge the obligation and responsibility for obtaining all of the required state, federal, or local permits before commencement of construction activities.

I CERTIFY that I am familiar with the information contained in this application, and that to the best of my knowledge and belief such information is true, complete, and accurate. I further certify that I possess the authority to undertake the proposed activities.

OWNER'S SIGNATURE _____

I HEREBY CERTIFY THAT I AM AN AUTHORIZED AGENT OF THE OWNER.

Signature _____ Title _____

Date _____

SECTION IX - APPLICATION FEES

TYPE OF PERMIT	FEE
1. General Surface Water Management Permit	\$ 25.00
2. Standard Surface Water Construction Permit	
Watershed less than 4 square miles	\$ 150.00
Watershed 4 square miles or greater	\$ 500.00
3. Standard Operating and Maintenance Permit	No Fee
4. Letter of Conceptual Approval	\$ 250.00

SECTION X - APPLICANT'S CHECKLIST

- Pre-application conference held
- Correct application fee enclosed
- All names and addresses provided
- Proof of agricultural status provided
 - Soil and Water Conservation District approved conservation plan
 - Green Card or other proof of agricultural classification of the property
 - ASCS farm number
 - District Affidavit of Agricultural Status (if required)
- Affidavit of Ownership and Owner's Authorization signed
- All plans and calculation enclosed
- Location map enclosed
- Topographic map enclosed
- Best Management Practices enclosed
- Wildlife inventory enclosed
- Wetlands inventory completed.
